EDUCATION

The University of British Columbia

Bachelor of Science in Computer Science

Vancouver, British Columbia

Expected Graduation, May 2028

- o **GPA:** 4.00/4.33, *Dean's List*
- o **Related Coursework:** Software Construction, Computer Systems, Data Structures and Algorithms, Models of Computation, Statistics

EXPERIENCE

McDonalds's

Crew Member

Richmond, British Columbia

July 2022 – Present

- Communicated clearly with other crew members to ensure orders were sent out quickly and accurately
- Demonstrated ability to work under pressure and provide friendly customer service during rush hours
- Created a positive guest experience and ensured guest satisfaction by professionally resolving any concerns

PROJECTS

Album Review Tracker | Java

- Developed a Java application that organizes, tracks, and manages user created album reviews
- Implemented creation and deletion of reviews, organization with categories, and sorting by multiple criteria
- Used test-driven development, object-oriented design principles, and JSON for user data persistence

Tower Defense Game | Python

- Built a tower defense game where players deploy towers to defend their base against infinite waves of enemies
- Implemented tower placements and upgrades, enemy movement, collision detection, and wave progression
- Applied object-oriented programming by using classes to separate the model and user interface

Calculator | HTML, CSS, JavaScript

- Created a web-based calculator that includes standard calculator operations with some extra features
- Added keyboard support, light and dark theme toggle, and a backspace button to erase previous inputs
- Used event listeners and DOM manipulation to create an interactive user interface

SKILLS

Languages: Python, Java, HTML, CSS, JavaScript

Tools: Git, GitHub, Visual Studio Code
